PRESS | INDEPENDENT STUDENT NEWSPAPER

JUNE
2018

Working parents mostly leave their children with grandparents or relatives. If the children are in the daycare, they pick them up after work and spend the whole time afterwards with their children only. Whenever parents are off work they spend more time with their children. The way they approach their children is different from the USA. Parents always are involved in their children's lives and help them to make a good decision. Children are free to make the decision but parents are involved in their children's personal matters with love and care. Children can object that it seems like too much control, but it's not. It is a showcase of love and care.

picture I took in an antique park in China; there is an attraction in the park always as I composed of K symbols. I looked closer I realized they were watching fancy carp in the pond and were making a wish to them, even like Western Wishing Pools, they

Symbolic interactionism means a theoretical perspective in which society is viewed as composed of symbols that people use to establish meaning, develop their views of the world, and communicate with one another. Symbolic interactionism is the basis

Chicago has very nice road, rail system which give unlimited and air transportation. It has weekly and monthly CTA and 2 big international airports, pace rides, but Metra (fast O'Hare and Midway. O'Hare trains) are a little bit expensive. airport is voted as the best

GAMES TO PLAY ON YOUR FREE TIME

BY: ABEL TORRES

Ever have spare time on your hands and don't know what to do with it? Well, have you ever considered playing video games or computer games? I have a few games that I recommend trying out should you be interested in playing computer games.

If you are looking for a game that isn't very intense and just calm and slow paced, then I'd recommend playing Old School Runescape. This game has been around for quite some time and there are many things to do in the game like level up stats, doing quests, even pvm and pvp (Player vs Monster/ Player vs Player). I have been playing this game since 2006 and still do. The best part about it is that it's free to play. Website for this game : <http://oldschool.runescape.com/>

Now if your looking for more engaging games similar in concept to Old School Runescape, then try out Runescape. They are both similar but Runescape has more of an engaging gameplay with tons of abilities that you can use and a more advanced version of old school runescape, free as well and created by the same company with a bunch of updates. Now note that these 2 games are grindy games meaning you will have to put time into it to become very powerful! Website for this game: <http://www.runescape.com/community> .

If you are looking for a more competitive game, then try out

League of Legends. This game has over 100 playable characters and is a very fun game with friends or even alone and will prove to test your skills in both teamwork and patience as games can last from 15-60 Minutes; on average they last about 30 minutes though. Website for this game: <https://www.riotgames.com/en>

If none of these games catch your attention, then I would recommend downloading Steam on your computer, as you will be able to browse through many games and interested in. There are many free games to play but you would have to look for them. There are also a bunch you would have to pay for -- it's all a matter of what you're looking for! But before purchasing be sure that your PC can run it! Steam website: <http://store.steampowered.com/>

Enjoy your game!

HOW VIDEO GAMES DIE BY LOUIS KLINE

In today's world, there are countless video games that are available to play for all kinds of systems, and many (in fact, a great majority of them) still exist, and can be as easily played as turning them on, pressing start, and having a good time. However, an increasingly modern phenomenon with video games is the fact that they are becoming increasingly ephemeral, as a shift away from physical media leads to pure digital distribution.

Sometimes, games may simply change a great deal from their original vision and gameplay, to the point of practically being different games entirely,

with no way for older players to play "Their" version of it, prevalent in MMORPGs (Massively Multiplayer Online Role Playing Games) such as World of Warcraft, Runescape, or Final Fantasy XIV, which famously took down the entire game and rebuilt it from the ground up.

Another way multiplayer games can perish, as Final Fantasy also demonstrates, is if the developers, or whomever

EPIDEMIC OF HOMICIDES

BY JOJO SMITH (LADY JO), P.O.E.T.

There is an epidemic of
homicides that drives the
souls of those of us who live
eight miles south.

Summer is loathed
winter a reprieve from the
smoking guns and blaring
sirens.

People are dying left and right
dying at night
for rolling the dice and being
nice

comes back to bite
It's death and destruction the
killings keep coming

Tears!

Fears!

Shattered dreams
A mother screams
because life is a struggle
a cycle of trouble
and all too ooming

"Guess Jeans" Guess was founded in 1981 in Los Angeles, CA. Guess Jean USA shirts was very big in the 90's and many rappers used to wear a lot in the past. Today "ASAP Mob" did something big and brought back the vintage Guess tees that a lot of people thought died and made it one of the top trends today

"Nike Air Force 1" AF1 was released in 1982 and started off as basketball shoes. This shoe has never died and it turned out to be one of the greatest shoes and a classic shoe of all time. Many companies did collaborations with this shoe and one of the biggest
